## TO WHOM IT MAY CONCERN

This letter is to introduce Warwick Marsh and his musical family "the Marshes". They are presently undertaking a music tour in China and working with the Australian Chinese Association for mutual understanding.

On this tour they are willing to perform free of charge as a gesture of goodwill. The Marshes are seeking to build a bridge of love between Australia and China using music and the Arts. As the Lord Mayor of Wollongong the Marshes have my blessing and support in this effort to build friendship with the people of China.

I have known Warwick Marsh personally for 25 years. He and his musical family are well known in Wollongong and have enjoyed national exposure through television and radio in Australia.

I commend them to you and ask that you would assist them in any way possible and help them with opportunities to perform to further develop positive Chinese Australia relations.

Yours sincerely

George Harrison  
Lord Mayor  
City of Wollongong

16 November 2000
